NEWARK, OHIO, WEDNESDAY EVENING, MARCH 9, 1921

TEN CENTS A WEEK

URGES REPEAL OF UNIFORM TAX RULE WOULD LIMIT DEBT

Taxation Committee Wants
Tax Rate Limited to 12
and 15 Mills.

Declares Present Tax Laws
Deservedly Held In
Contempt.

Columbus, March 9.—With a declaration that "our present tax laws are deservedly held in contempt," Governor Davis today recommended the adoption of a constitutional amendment abolishing the uniform rule, thereby opening the way for classification of property, and limiting the tax rate to 15 mills in corporations and 12 mills in rural districts. The proposed amendment also compels the adoption of income and inheritance tax laws. An inheritance tax law already is in effect. The committee also in-corporated the debt limitation proposal. With the report of this committee, the various taxation programs are practically completed and the battle lines between the uniform rule advocates and those accepting classification are well defined. The program of the proponents of strict enforcement of the uniform rule, led by Representative Chester of Paulding county, contemplates penalties for tax dodgers; defines credits so as to bring intangibles onto the duplicate; reduces levies in proportion to increases in intangibles; an income tax, and authorizes county auditors to make tax payers verify their returns before a county record.

Both taxation programs are expected to be placed in completed forms before the legislature today with the introduction of the amendment proposed by the governor's committee, and the introduction of uniform rule advocates' proposed law giving auditors the right to bring taxpayers before the courts. Amendments and bills covering other subjects in both programs already are before the assembly.

The proposed maximum levies in the amendment submitted by the governor's committee are not absolute. The legislature is authorized to enact laws permitting additional levies for specified purposes on question of the popular vote. No state tax can be levied on real estate in excess of one mill which must be included on a proposed maximum.

The proposed soldiers bonus levy, if approved by the voters as well as certain sinking fund and interest levies, would be outside the 12 mill and 15 mill limitations.

Should the committee's proposed amendment be adopted subsequent legislation would be required to carry out the remainder of the taxation program and for this reason a special legislative session probably would be called after the November election of this purpose.

The report of the governor's committee was unanimous and contained a discussion of taxation problems in general.

PETROGRAD AGAIN FREE FROM REDS

Helsingfors Dispatches Say
Revolutionary Forces Are
Victorious In Street Fight-
ing With Machine Guns.

Copenhagen, March 9.—Petrograd is reported to be in the hands of revolutionary forces which for several days have been fighting against Russian Bolshevik troops near that city, says special dispatches from Helsingfors received here this morning.

The revolutionary forces were victorious, the dispatches declared, after a terrific bombardment of Petrograd from Kronstadt, Gorky and Vysserby, which was followed by machine gun battles in the streets of the city.

London, March 9.—Workers in Soviet Russia are unanimously indignant over the revolutionary uprising at Kronstadt, and are beginning to be allowed to fight against the forces equipped with Soviet troops there a wireless dispatch from Moscow says.

The dispatches that "fiction is beginning to be noticeable among the mutineers." The 10th congress of the Russian Communist party opened at Moscow yesterday under difficult circumstances.

The Republic is surrounded by an endless number of enemies," it continues. "The short breathing space given Russia has been interrupted by new enemies." The tasks confronting the government in Moscow from April, placed on the hills overlooking the city, says a Central News despatch from Helsingfors today, several hundred persons were killed and numbers of others wounded.

More than 100,000 men and women, the despatch says, now are on strike in Moscow.

KERENSKY DIRECTS REVOLT AT KRONSTADT

Copenhagen, Tuesday, March 8.—Alexander Kerensky, premier of the Russian provisional government which was overturned by the Bolsheviks late in 1917, is said in advices received here, to be at Kronstadt, the Russian fortress near Petrograd, reported in revolutionary circles.

Kerensky is declared, in directing the revolutionary offensive against Petrograd with Kronstadt more or less a base.

MARRIED ON WRONG SIDE OF STREET; HAVE NEW "HITCH"

Danville, Ill., March 8.—Because they were married on the wrong side of street, Mr. and Mrs. Alman L. Leneve of Danville, wedded since 1903, went through a second ceremony at Urbana, Ill., after obtaining a license in Danville in 1905, to marry Louise Johnson. Leneve decided that the ceremony should be performed in the new home he had fitted up for his bride in the town of State Line on the Illinois-Indiana border. The house was just over the line in Indiana but the question of legality of the license did not occur to the Leneves until recently at the marriage of their daughter. Attorneys were consulted and as a result the second wedding was arranged.

SPAIN'S PREMIER IS SHOT TO DEATH SLAYER ESCAPES

Three Bullets Enter Head
When Assassins Pour
Rain of Lead Into Minis-
ter's Motor Car.

Madrid, March 9.—This city was horrified last night when it became known that Eduardo Dato, premier and minister of marine had been assassinated while returning to his home from a late meeting of the Spanish senate. Immediately after the news was received in official quarters arrangements were made to carry on the government until a new premier could be appointed by King Alfonso. The count de Pugalil, minister of interior, will act as temporary premier.

All trace of the men who killed the premier was lost in the excitement attending the assassination. Immediately after the crime had been committed, the criminals, who were riding in a side car of a motor cycle, sped away and disappeared.

Premier Dato left the senate chamber at 8:30 o'clock, and entered his car. The machine was driven through Cal Alerena to Puerto Del Sol, and then through Calle de Alcalá. A motorcycle with a side car, carrying two men had followed the premier's motor unnoticed, there being many similar machines on the streets. When the premier's car had reached Plaza Independencia, near Dato's home, the motorcycle increased its speed and approached the side of the premier's automobile.

At that point the streets are quite dark, owing to the fact that a large park borders the north side of the plaza.

When the motorcycle had drawn up even with the automobile, the two men in the side car and the driver of the machine opened fire upon the premier. 21 shots being discharged. The tragedy was enacted in a few moments and as the last shot rang out the motorcycle swung into a side street and vanished.

The driver of the premier's car, hearing the firing, increased his speed, but the premier's chauffeur, who was seated in the front seat, was wounded about the head but able to speak. He said he was badly hurt. The driver leaped to his feet and drove to a nearby street, where first aid was administered. Senator Dato conscious when taken from the automobile, but collapsed in a few minutes and died while at the dispensary. He had three wounds in the back of his head and the car in which he was riding was riddled with bullets.

At the session of the senate which the premier had been attending, the minister of labor had introduced a bill extending the provisions of the labor accident law, to agriculture workers.

"I am wounded, stop the car." The chauffeur found the premier seriously wounded about the head but able to speak. He said he was badly hurt. The driver leaped to his feet and drove to a nearby street, where first aid was administered. Senator Dato conscious when taken from the automobile, but collapsed in a few minutes and died while at the dispensary. He had three wounds in the back of his head and the car in which he was riding was riddled with bullets.

COLUMBUS MAN CHARGED WITH DEATH OF GIRL

Arrest Is Made Following
Autopsy Held Monday
at Hebron.

Hearing Will Be Held Fri-
day — Officials Main-
tain Silence.

Sheriff E. A. Bryan and Deputy Sheriff Bill Santschi went to Hebron yesterday afternoon and returned with Ray B. Foster of Columbus who was arrested there yesterday on an affidavit of Coroner S. S. Richards, charging him with the "unlawful killing" of Capt. Soudard of Columbus, who was found in the Paradise cottage at Buckeye Lake Monday afternoon. The man was lodged in the county jail and will there await a hearing Friday on the charge in the squire's court at Hebron.

Prosecutor Ralph Norpell went to Hebron again this afternoon to continue the investigation into the strange death of the girl, who was 17 years old. He stated from Hebron that there were no new developments which could be announced at this time.

Following the autopsy yesterday on the body of the girl, Coroner Richards rendered a decision, which he is authorized to give out as soon as he is authorized by Prosecutor Norpell.

The autopsy was performed by Coroner Richards and Dr. Bozman of Hebron.

Foster had no hearing this morning or today as was announced. The hearing has been set for Friday by which time the various angles of the investigation are expected to be cleared up.

The occupation of the important sections of Germany by the allies to punish Germany for its failure to accept the allied reparations terms has begun. The first aggressive move was made by French troops which crossed the Rhine north of Cologne and took possession of Dusseldorf, Ruhrort and Duisburg. All three cities are important shipping and manufacturing centers. In addition to occupying these centers, the allies' plans call for imposition by each country of such a tax on German imports as may seem fitting and the establishment of a customs boundary under allied control along the Rhine.

FRENCH SEIZE GERMAN SHIPPING AND MANUFACTURING CENTERS IN ADVANCE

Shaded portion of map indicates part of Germany occupied by the allies and U. S. troops since the armistice. The three great bridgeheads at Cologne, Coblenz and Mayence were occupied by British, American and French troops as strategic points from which to attack should the occasion arise. Above Cologne, on the German side of the Rhine, can be seen Dusseldorf, Duisburg and Ruhrort, taken by French troops soon after the advance into Germany was ordered.

All three cities are important shipping and manufacturing centers. In addition to occupying these centers, the allies' plans call for imposition by each country of such a tax on German imports as may seem fitting and the establishment of a customs boundary under allied control along the Rhine.

The occupation of the important sections of Germany by the allies to punish Germany for its failure to accept the allied reparations terms has begun. The first aggressive move was made by French troops which crossed the Rhine north of Cologne and took possession of Dusseldorf, Ruhrort and Duisburg. All three cities are important shipping and manufacturing centers. In addition to occupying these centers, the allies' plans call for imposition by each country of such a tax on German imports as may seem fitting and the establishment of a customs boundary under allied control along the Rhine.

PASSENGER AIR LINERS PROMISE TO LINK WORLD

Plan to Fly Giant Dirigibles From London to America, Australia and Africa.

SPEED 60 MILES AN HOUR

Craft, With 100 Passengers Aboard, Expected to Fly From England to California in Four Days—Commercial Airship is Already a Success.

London.—Plans are now under discussion here for linking up all parts of the world by passenger air routes, on which giant dirigibles, flying two miles above the surface at 60 miles an hour, will join London with North America, Australia, India and South Africa. If these plans are carried out air liners 800 feet long, equipped with berths, dining rooms, smoking rooms, libraries and observation platforms, will speed from England to San Francisco in four days, stopping to discharge passengers and mails at New York and Chicago. Each ship will carry 100 passengers, and the fare will be only 50 per cent more than present steamship rates. Ships capable of this service are now in commission, and a trial passenger flight will be made to Egypt by a British government airship to determine the feasibility of opening such passenger routes.

"The commercial airship already has proved its success," said Sir Trevor Dawson of Vickers, Limited, when asked whether he thought the plan practicable. Vickers, Limited, is now building airships for the British government, and Sir Trevor is an expert on the lighter-than-air craft.

"Day of Passenger Liner Here."

"The success of the R-34 showed the possibilities of a transatlantic service," he continued. "It is now only a question of building more and larger ships and equipping suitable landing fields, sheds and mooring stations on both sides of the Atlantic. The airships are speedy, safe and reliable. They can carry large cargoes, have a wide cruising range, and can ride out almost any weather.

"The day of the passenger air liner is here, and if the task of organizing air routes is undertaken by big financial interests it should be possible to begin a regular passenger service over Europe within six months with the ships and bases already in existence. The American service would require somewhat larger ships and landing stations in North America. But it could be in operation in less than three years. We need such a service, and I believe that it will come."

The R-34 is the type of craft suggested for the proposed service, but the contemplated ships, although built on the R-34 lines, would be much larger and have a far greater cruising radius. It is said that a rigid airship could be built that would be 1,100 feet long, carrying 136 tons of freight or passengers, and having a maximum range of 13,250 miles, cruising radius.

Maitland Supports Project.

Brig. Gen. E. M. Maitland, who commanded the R-34 in the transatlantic flight, is a believer in the plan for world air routes. "Even the existing airship of today can be regarded as a reasonably safe public conveyance," he says. "They already have proved themselves capable of flying through practically any type of weather, and the larger airships of the future, fitted with more powerful machinery, necessarily will be even safer. Fog does not prove a real menace to airships, as with the present methods of navigation it is not necessary to see the ground in flying between bases. It is true that at present the most violent forms of electric storms are an undoubted danger to all forms of aircraft, but at the most this danger appears to be less than the danger of rocky coasts and shallows to the seagoing ship.

"Airships of this type of the R-38, which is now being built at Bedford, or the German L-71, would be capable of flying from England to Egypt, a distance of 2,200 miles, without a stop in two and one-half days. These ships would carry about 80 passengers, with 100 pounds of baggage for each passenger, and about two tons of mail and merchandise. To put it another way, 15 tons would be available for passengers, mails or merchandise.

"Comfort in aerial travel is essential if it is to have any extended future. The advantage of speed is thrown away if the passenger is physically or nervously exhausted on landing. But ample accommodations can be provided for day and night travel."

Sleepers Are Provided.
A proposed car has been designed by Beardmore, at Dalmuir, in which special attention has been given to the importance of giving each passenger a good view. The windows are so arranged that passengers can see both outward and vertically downward should they wish to do so. The passengers sit facing each other with a table between them, rather like a large Pullman car. If they wish, they can arrange the chairs and tables for bridge. "Sleepers are provided in the shape

of bunks which fold down and allow the passengers to sleep athwartship. The whole of the car will be heated by steam generated from the engines, and air will be admitted at the forward end of the car, where it will be warmed over radiators.

"One is struck by the absence of noise or vibration in a large airship, and the absence of smoke or dirt is a great asset. The complete absence of seasickness is also an important consideration."

Valuable War Reserve Force.

The knowledge of handling the lighter-than-air craft greatly increased during the war. The ships were used under all weather and atmospheric conditions and did valuable service as escort and convoy craft and also in combat against submarines. Small rigid dirigibles were used to locate and pursue the submarines and were able to detect a U-boat far below the surface. The new ships, in addition to their duties as passenger vessels, can easily be converted to purposes of war and will thus form a valuable air reserve force.

One of the developments recently made in airship landing stations is the mooring mast, which enables the airship to come to the ground and be moored even during bad weather. The mast is a tall structure, with a swivel mooring device at the top, from which the airship swings.

Plans are now being prepared for a mooring tower especially arranged for use with passenger-carrying airships. The revolving head of the mast will be provided with a powerful winch for hauling in and a shock absorbing buffer will enable the ship to be coupled up without difficulty even in winds up to 80 miles an hour. Within the mast there will be a passenger elevator by which the passengers will ascend to an upper platform, where they will cross a gangway and enter the ship.

Pipe lines to carry hydrogen, gasoline and water to the ship also will be run up the mast, and the vessel can thus refuel at her moorings.

Inventions Increase Safety.

Many war discoveries aid in increasing the safety of airship travel. The wireless direction finder makes it possible for the ship to find her location at all times and so navigate successfully in fogs. The increasing range and sources of information of the meteorological service aids in giving weather forecasts that will warn aircraft of approaching storms, which can be avoided by a change of course.

Laboratory investigations are now being made of the nature of the particles of moisture that form fogs, and it is hoped that some way will be found of dispersing fog, so that a local clear area may be maintained about the landing places. All landing places are marked with brilliant electric beacons and lighthouses are being erected to guide night flying ships along aerial routes.

Airships are even now a safe form of travel. When rain, high winds or electric storms approach they can seek the higher air levels and so avoid danger. The risks from fire have been reduced to a minimum, and the danger of engine trouble, ever present in the airplane, is nullified by the fact that repairs always can be made without descending. Rigid airships never have less than four engines, and it is improbable that all engines will break down at one time. Even if half the engines broke down the ship could travel at four-fifths of her normal speed.

Public Demands Speed.

The airship has the advantage over both the airplane and the steamship as a passenger craft. The airplane can only travel 800 miles without stopping at a base for fuel and is thus impracticable for long distance routes. It is, furthermore, of limited carrying capacity, and the disagreeable features of noise and vibration cannot be done away with. The great rigid, moving steadily day and night and having a cruising radius of 2,000 to 3,000 miles, makes a far better passenger ship. It has been suggested that airplane routes could be used as feeders to the airship lines, small airplanes carrying passengers to a central point, whence they could embark on the airships of transoceanic and transcontinental lines.

When the lines are established the steamships also will find them serious competitors. The airship is infinitely quicker and does not have the pitch and toss that makes steam travel unpleasant. The demand for great liners that cut down the time spent in

transatlantic travel shows that there is a large class of travelers who want and will pay for speed. These people will be the clientele of the transatlantic airship.

The shipment of valuables, bonds, stocks and bullion on the speedy air liners will save the money lost in interest, and urgent mails should be shipped in this way. Even at an advanced postage rate a letter of thousands of words could be speedily transmitted in this way at the cost of one word of a cabled message.

Advantages Over Steamship.

The advantages of the airship over the steamship and also the relative cost of travel are shown in the following table compiled by Brigadier General Maitland:

| | Airship | Steamship |
|----------------------|---------|-----------|
| Time of transit, to— | | |
| England | 4 days | 14-16 |
| India | 10-12 | 40-45 |
| Africa | 10-12 | 40-45 |
| Australia | 10-12 | 40-45 |

Speed, safety, and a new and thrilling form of travel will be thus combined at a cost that, in view of the saving of time, is relatively little greater than the present steamship rate.

"The continental air routes will come first," says Sir Trevor Dawson, "but the most important part of air travel will be that between Europe and North America. They are the two great continents, the continents that have between them a steady flow of passenger travel. Air travel must come, cutting down the time distance between countries, and thus strengthening the ties of business, trade and international understanding. I am looking forward to the time when air liners will bring London within two days of America."—Otis Peabody Swift in New York Tribune.

FIND INDIAN CHIEF'S GRAVE

He Was Buried Long Ago in Kansas With All His Worldly Possessions.

Liberal, Kan.—The last resting place of an Indian chieftain and his horse have been unearthed by O. E. Hinds, a farmer near Floris, in the sandhills along the Beaver.

He had been sent off to the "happy hunting grounds," with apparently all his worldly possessions. The skeleton was wrapped in a blanket of heavy texture, apparently once of brightest colors. Beneath the human skeleton was that of a horse, which had been interred with full accoutrements—saddle, bridle and numerous trinkets with which Indians were accustomed to decorate their favorite mounts.

On the wrist of the man's skeleton was a large bracelet made of many coils of metal, about three inches wide and quite heavy. A ring of the same material encompassed one finger. Another bracelet, of more elaborate design, was found among the ornaments, made of metal, rawhide, and many beads, highly ornamented; and shell ornaments also were found. The only weapon was what apparently had once been a sword or spear.

GAS BALKS SAFE CRACKERS

After Working for Hours on Bank Vault They Decamp, Leaving Their Tools Behind.

Mt. Clemens, Mich.—Mustard gas saved the Merchants and Savings bank at Utica a considerable sum of money. After having worked for some hours to reach the interior of the bank vault, three rogues were forced away from their quarry by mustard gas hidden in the recesses of the vault.

An investigation of the interior of the bank found it filled with the fumes of mustard gas. The first door of the vault had been blown away. The mustard gas tubes had been installed ten days ago as a precaution against robbers.

Lieut. Charles Carmody, fingerprint expert of the Detroit police department, was summoned by Sheriff Spalter to make photographs of finger prints on the vault door. Lieutenant Carmody is of the opinion that the men are expert cracksmen.

Officers of the sheriff's staff are combing neighborhood towns for traces of the bandits, but no arrests have been made.

In their haste to escape the fumes the robbers left their burglar tools behind.

Sexton Defies Ghosts in Old Mausoleum

Tuscaloosa, Ala.—"Old Ike," a negro sexton in a Tuscaloosa cemetery, was not superstitious. That seems to have been proved with the recent demolition of a mausoleum here.

When the vault fell into decay, weird happenings were related, and it was pointed out as a place where ghosts congregated. It was abandoned except by "Old Ike," the only name by which he was known.

There was a hole in the wall, and when Ike discovered it, he decided to utilize the place for storing his pick, shovel and other tools. He is credited with saying that he never lost a tool.

Young Farmer Won Embroidery Prize

Boston, Ind.—The prize winner of the sweepstakes prize for the best example of hand embroidery, at a town-ship farmer's institute held here, was Charles Endsley, a young farmer, who won over many women entries.

The same great artists on the Victrola

The Victrola brings into your home the great attractions offered on the opera and concert stage. In one night you can hear not one famous artist but as many as you choose. You share in the keen musical pleasure experienced by the hosts of music-lovers who attend the actual performances, for the world's greatest artists make records for the Victor.

Victrolas in great variety from \$25 to \$1500. Victor dealers everywhere. New Victor Records demonstrated at all dealers in Victor products on the 1st of each month.

TREASURED DOCUMENT KEPT IN STEEL BOX IN STATE DEPARTMENT BUILDING

Washington.—The most important chronicles of some ancient nations have come down to present generations engraved on porphyry and marble. The United States, however, having existed wholly in an "age of paper," has all its most precious historical records in the form of paper documents, which can easily be destroyed by fire, and injured by dampness, extreme dryness, or rough handling.

A recent fire which destroyed irreplaceable records in the census bureau at Washington, and an almost simultaneous fire in the state capital of West Virginia which practically wiped out the archives of that state, have reinforced the argument of those urging that a fireproof ark of records be built in Washington so the federal government's priceless papers may be kept in safety. What some of the most important and best known of those documents are, and where they are kept are told in the following bulletin issued from the Washington, D. C., headquarters of the National Geographic Society:

"While the constitution is the most important document possessed by the United States, the Declaration of Independence comes first among our great state papers in point of time and probably in the hearts of the American people. The original of this challenge to tyranny which, like the shot fired at Lexington, has been heard round the world, and has helped monarchies and colonies into republics is in the hands of the department of state, and is kept in a steel case in the state, war and navy building, which adjoins the White House on the west. The original of the constitution is locked in the same case, which may therefore be considered the steel ark of the government of the United States.

made their content safe from destruction even though the prized originals may be lost. By still another step, an unparalleled silence has multiplied the form of famous records as well as their wording. Because of the photographic copies that have been made, today even a school child may be as familiar with the appearance of the Constitution or the Declaration of Independence as the favored few who have looked upon the treasured originals.

"Lincoln's emancipation proclamation is in the library of the state department in Washington and there, too, are all the treaties entered into by the United States, from that of 1778 with the French and that of 1783 which closed the Revolution, down to the present. Among these perhaps the most interesting are those which have contributed to the great territorial growth of the country.

"There is the treaty of 1803 with France which arranged for what is probably the greatest real estate deal in history—the Louisiana purchase. There is the treaty with Spain which added Florida to the new republic; and the uncompleted treaty with the independent republic of Texas which led to the only instance in which a separate nation has merged itself with the United States. Near them in the files of the state department are the treaties with Mexico adding to the United States, California and the other territory west of Texas and south of Oregon; the treaty with Great Britain adding Oregon; the treaty with Russia arranging for the second greatest purchase of territory, the Alaska Purchase; and the treaties which have resulted in bringing Hawaii, the Philippines, Porto Rico, Guam and the Virgin Islands under the American flag."

When I make up my jewels
And they shall be mine,
saith the Lord of hosts, in
that day when I make up
my jewels; and I will spare them,
as a man spareth his own son that
serveth him. —Malachi 3:17.

ACHIEVING POPULARITY.

Many young people are worried because they are not more "popular." Young women are apt to be particularly affected that way, since they often feel that the question of their marriage depends upon their power of winning attention.

A friend was telling the other day about two typical girls of her acquaintance, neither of whom, it may be said, lives here. But their counterparts can be found in Newark.

No. 1 recently graduated from a high school, barely skimming through. Somehow she manages to fascinate the boys, though someone who heard her talk said that her conversation did not seem particularly brilliant, as she was boasting principally as to the low marks she got in school. She is not fitted for any kind of business. Her mother is a toil-some woman who is working hard to help provide clothes for the daughter. The girl is simply overladen with attentions from the fellows. A boy feels as if a queen had noticed him when she speaks to him.

No. 2 is a quiet, but imaginative girl, with a plain face. She has unusual gifts of expression and has written clever stories. But the boys will have none of her. "Mother, you know a girl simply has to be a good looker," said one young man whose parent remonstrated with him for not paying attention to so worthy a young person. No. 2 spends her summers at a fine resort where many gifted people visit. She is popular in this element, though neglected in her home town.

Which of these girls will come out best? No. 2 is on the top wave now, but seems booked for a fall. Those who make effort for self-improvement will fare better in the long run than the mere "good lookers." The last named class are spoiled by having things come too easy.

METHODS OF PROGRESS.

"The Nation's Business" in a semi-humorous story of the progress of "Our Town," suggests two reasons why many civic and business boosting movements do not get anywhere. Though no doubt a flimsy story it fits in many communities, and it may not be without application in Newark.

In the typical town described in this story, a commercial club was first organized by a local booster, and it had a grand glorification for an initial meeting. Everyone was enthusiastic. Before the meeting was over, the diners could almost see the sewer system, new high school, street paving, new railroad station, etc. But all this enthusiasm went up in smoke, and none of these things were accomplished. The commercial club soon died.

Several years later a new crowd organized a modern chamber of commerce. The town was put on the map and accomplished many of the ends it had long dreamed about.

The promoter was asked how they did it. He said they had just two secret rules. These were as follows:

Rule 1.—Appoint no orators chairmen of committees.

Rule 2.—Appoint no committeemen who will not "commit."

All they had done in previous efforts was to hold enthusiastic meetings, but they did not back them up with enthusiastic work. After a man had made a good speech in favor of a thing, he seemed to feel he had done his full duty, and could not afford to give any more of his valuable time to it. This time they put real workers as chairmen of committees, instead of orators. When they did that, they began to get things done.

It might be mentioned incidentally that in many successful town progress movements, the best workers have been young men, often newcomers in the place, men who felt they had a record to make and were willing to give time and trouble.

B. & O. VETERANS CAMPAIGN.

Members of the Baltimore & Ohio veterans association are conducting an active campaign in Newark among the shippers and merchants urging them to use the B. & O. freight service.

"The success of the B. & O. railroad

is a matter of vital interest to me as well as my family and I desire that the merchants whom I patronize shall be also interested in the industry with which I am connected," says a card which is being used in the campaign. The veterans are meeting with cordial reception and no doubt the increase in business which they are securing for the B. & O. will be helpful not only to the road, but will reflect credit upon the men who bring about the increased business.

The new state highway commissioner under the "economy" administration of Governor Davis has made an increase of \$78,000 in appropriation requests—the entire amount to be used in salaries. Governor Davis got his \$15,000 increase and now the "boys" want theirs.

Most of the people who are opposed to sending money out of the country to relieve the starving children of Europe, have not yet put down their names on any subscriptions for unemployed people at home.

All elements in industrial conflicts say they want only what is fair, but they all claim the right to make the decision as to what is right.

The people who won't advertise because they can't afford it, ought to go one step farther and save money by discharging their store clerks.

The congressmen who are holding up work by long speeches, will probably be complaining soon because no business is being done.

The people who charged double pay for overtime are now paying double price for goods produced in overtime.

The modern business girl may not know the spelling book, but she can pass an examination on beauty hints.

The first job in the planting season should be to plant a lot of these burglars and hold-up men under ground.

When the politicians get to calling each other liars it frequently happens they are all telling the truth.

Common method of teaching English to foreigners, is to have the foreman swear at them freely.

The report that women are learning to shoot will cause alarm among the innocent bystanders.

QUAKER QUIPS.

(Philadelphia Record.)

Life is too short, but you'll find it shorter before long.

Even when she is engaged a girl shouldn't have too many strings to her beau.

"Well—Jack tells me I am his first love." Belle—"Here's hoping the first shall be last."

You can't use cuss words in polite society, but you can always substitute a cursory glance.

When a woman marries she has to break a man in, but that is better than having him break out.

BORROWED HUSBANDS

By MILDRED K. BARBOUR

LI.—The Incurable Humorist.

Nancy went back to "Loiter Long" in the car with Desmond and Curtis Stanley.

Edith had elected to go with the doctor in the limousine. She conquered her aversion to suffering to the extent of being able to support the cushions which surrounded the unconscious Fleurette, though she kept her eyes averted from the girl's face.

The little man with the pinky bulbous nose rode in front with the chauffeur.

Nancy looked back pityingly at the other car as Desmond sent the small roadster speeding ahead.

She was wondering what would take place there between Edith and Dr. Langwell across the body of the unconscious girl.

Had Edith deliberately chosen to make the return trip with the doctor and his patient that she might miss no detail of the girl's awakening, no look or word, or gesture?

"Bad luck to look back, Nancy," declared Stanley jovially. "Let 'er out, Desmond. She's got a lot of speed. I want to go like the devil to get the bad taste of this affair out of my mouth."

"I think the doctor has his hands full enough without giving him any more speed victims," laughed Desmond.

He had insisted on taking the wheel for the return trip once he had glimpsed Stanley's flushed face and blazing eyes.

"Great man, the doctor," approved Stanley, nodding his head solemnly, his utterance slightly thickened. "I'm for him."

"You're for anyone who has a good private stock," said Nancy crushingly. "Aren't you ashamed to drink the brandy that was meant for a poor unconscious girl?"

Stanley winked ludicrously. "Shame to waste good stuff like that on anybody that's unconscious," he defended himself. "If I'd known he had a cellar, I'd have been out last night."

"Thank Heaven you were in ignorance," murmured Nancy. "I had one peaceful evening."

Stanley leered at her happily. "Desmond making love to you—or was it Langwell?"

Nancy flushed crimson.

She said not a word, but the young officer bit his lip tight on the steering wheel.

When Stanley started to speak again, Desmond said quietly:

"I think you'd better drop the subject, Stanley."

The latter stretched comfortably back in the car.

"That's so?" he enquired cheerfully. "Don't be so damn touchy! Everybody makes love to Nancy. I'll bet the doctor is the latest. Nancy doesn't mind."

Before Nancy could frame a crushing retort, Desmond said quietly:

"I think it would be well for you to know, Stanley, that I have asked Mrs. Burrard to be my wife. She has not yet given me an answer, but I still claim the right to resent your remarks."

Stanley came out of his alcoholic haze to stare open-mouthed from Desmond to Nancy and back to the former again.

Then he went off into loud laughter, peal after peal, bending almost double in the little roadster and holding his sides while Nancy and the young officer stared at him blankly.

Finally, his mirth subsided sufficiently for him to fish a handkerchief out of his pocket and wipe his moist eyes.

Over its folds, he bent on Desmond a watery gaze.

"You—you asked Nancy to marry you—to MARRY you?"

Desmond inclined his head, his lips grimly set.

Mirth threatened to render Stanley inarticulate again but he conquered himself sufficiently to gasp:

"Gosh, that's the best one I've heard yet! Oh boy, if you only knew!"

An icy hand seemed to grip Nancy. She knew that Desmond was looking at her steadily.

LISTEN, WORLD!

By Elsie Robinson.

I wish the world would stop preaching horrible warnings of "triangle love affairs." It only adds to their glamour and makes the participants think they're putting over something unique and heroic. Ever since writers first needed to eat they've been decorating such affairs with literary riddles until an "outlaw love" has become a sort of symbol of a brain that "sees beyond the stupid common law," or "souls that seek a richer life" and so forth. As a matter of fact a triangle love affair

isn't a romantic adventure if you cut out the sounds from the orchestra. IT'S MERELY A BEASTLY BORE.

Life isn't made up of twilight hours and laughter and dancing and fresh air and food and common contacts with common people. There's mystery and delight in that contact but it's mighty well insulated.

You've got to play the Common Game in the Accepted Way if you want to get at that delight. If you won't play the game you're a nuisance to yourself and everyone else and they'll presently stop thinking poetry about you and call the police. That's why we ought to stop talking romance about them.

Preaching won't stop it though. Preaching seldom accomplishes anything. You either make people feel important or you make them feel afraid and neither feeling gets them anywhere. Moreover there's no use in telling them that an outraged God is going to stop His work to make an example of them—because God won't back up your prophecy.

What will really happen is much more sensible and effective. God won't roar and the world won't turn somersaults if you have a Triangle Affair. BUT PEOPLE WILL LAUGH AT YOU. And then they will begin to yawn when your name is mentioned. WHICH IS MY IDEA OF HELL.

Readers' Viewpoint

THE FIVE CENT LOAF.

Editor The Advocate:—Several days ago in discussing the high cost of education you incidentally remarked that cheap education, like the five cent loaf of bread, has disappeared. The five cent loaf has not disappeared except for those who cannot or will not do their own baking. In a survey conducted by the United States department of agriculture in hundreds of farm homes throughout the central states from Ohio westward it was found that more than 90 percent of farm housewives do their own baking. The proportion in the cities is of course much smaller, but still there are many who prefer the home-made product.

Several times recently Newark-made flour has been advertised in your paper at \$1.20 for 24 1-2 pounds, or \$9.60 per barrel, less than the wholesale price in some of the larger Ohio cities. This is made possible by the saving in freight charges and other expenses. According to the formula furnished by one large commercial baker, this barrel of flour will with the addition of the proper amount of lard, sugar, yeast, salt and water produce a batch of dough weighing slightly over 200 pounds at a cost of around \$12 for the material, or approximately 4c a loaf. Any housewife who does her own baking gets her bread at that price, not counting her labor. The fuel necessary to do her baking is a small item, especially in the winter when, heat in the home is necessary.

But the commercial baker, of course, can not sell his bread for much less than at present. To the cost of the raw materials he must add the extra expense of fuel, labor, paper, twine, rent or taxes and delivery, all of which are high in price. This is service which bread buyers demand and they should pay for it.

Newark bakers are perhaps selling bread on as small a margin of profit as any. Yet with bake shops in Newark sufficient to supply the needs of Newark consumers large quantities of bread are brought into Newark daily from other cities and sold to Newark consumers. Do you wonder why Newark men are idle? Why not, when they buy bread and flour made by the workmen in surrounding towns sending their money to these other places instead of paying it out to Newark labor?

Why don't your Chamber of Commerce and your labor organizations start a campaign to buy "the staff of life" flour and bread made in Newark, by Newark capital and labor? The farmers of Licking county can grow far more than enough wheat to supply all the needs of both city and county.

O. D. COOPERIDER.

WAGE CONFERENCE FAILS.
New York, March 8.—New York Central railroad officials and representatives of common labor employed by that system failed yesterday to reach an agreement at a conference called

NOW LET'S DO SOMETHING!

to discuss proposed reductions in the pay of unskilled workmen. The railroad proposed cuts ranging from 13 to 20 cents an hour effective April 13. Declining to accept them the labor representatives said they would discuss the matter with the men. Another conference on the subject was set for March 22.

If pullets are to lay eggs by Thanksgiving, Reds, Rocks and Wyandottes must be hatched by March and Leghorns during April. For breeding purposes, however, they may be hatched somewhat later.

March takes its name from Mars, the god of war.

DEPENDABLE STRINGS

FOR VIOLIN, MANDOLIN, GUITAR, BANJO, UKELELE, ETC.

WE carry strings that stay put. Our line is selected on the basis of strength and musical worth. Our strings last, and they have the correct tone.

We suggest you put a complete set of extra strings in your case. You may want them the most just at a time when it is impossible to get them.

Whatever your string need, we can supply it. You'll find our quality better and our prices reasonable. Drop in, when around this way.

Aunt Caline says:—Yesterday after dinner I went over to Maggie Zeen's on a little errand relating to the Uplifter's Club, which I am she both belong to.

When I went in they want nobody in site but little Ben which set there looking terrible sallow with his lip stuck out. "Are you sick, Ben?" says I. "No," says he, "I wish I was then meddy I wouldn't half to go to Pluppy's fool party," he says. "Pluppy didn't want to have it neither but his maw made him an' now my maw is a-going to make me go," he says. "Jest then Maggie come in an' says she, 'Ben Zeen, ain't I told you a dozen times to go up an' get ready for the party?' she says. 'Now you go rite up an' wash you good,' says she. 'Respect your neck an' necks,' she says. So Ben started off terrible slow. Pretty soon he called down. 'Maw do I haft to ware a collar?' he says. 'Why of course you do,' says Maggie. 'What a silly question!' she says. 'Tain't say either,' says Ben. 'I wanted to no how far down to wash my neck, didn't I?' he says.

RESOLUTION NO. 1051.

By Mr. Redman.
Declaring it necessary to improve Curtis Avenue from East Main Street to Henderson Avenue by curbing and paving the roadway thereof.

Be it resolved by the Council of the City of Newark, State of Ohio: three-fourths of all the members elected thereto: concurring:

Section 1. That it is necessary to improve Curtis Avenue from East Main Street to Henderson Avenue by curbing and paving the roadway thereof in accordance with the plans, specifications, estimates and profiles of the proposed improvement prepared by the Civil Engineer, now on file in the office of the Director of Public Service, which are hereby approved which shall be open to the inspection of all persons interested.

Section 2. The material used in the construction of said improvement shall be asphalt, brick, stone, cement or other material as shall hereafter be determined.

Section 3. That the grade of said street and curb shall be as follows: Commencing at south line of East Main Street at an elevation of 104.17 feet above the established datum of the city of Newark; thence southerly by a straight grade 200 feet to a point at an elevation of 104.82 feet; thence southerly by a straight grade 50 feet to the north line of a 20 foot alley at an elevation of 104.58 feet; thence southerly by a straight grade to the north line of Henderson Avenue at an elevation of 99.63 feet. The grade of the center line of said street shall be parallel to and 1.5 inches lower than the grade of the curbs as described above as shown on the plans and profiles now on file in the office of the Director of Public Service.

Section 4. That the whole cost of said improvement, less one-fifth thereof and the cost of intersections shall be assessed by the foot frontage upon the following described lots and lands to-wit: All lots and lands bounding and abutting upon the proposed improvement which said lots and lands are hereby determined to be specially benefited by said improvement and the cost of said improvement shall include the expense of printing and publishing notices, resolutions and ordinances required, and the serving of said notices, the cost of construction, together with the interest on bonds issued in anticipation of the collection of deferred assessments and all other necessary expense.

Section 5. That the assessments so to be levied shall be paid in twenty (20) semi-annual installments with the interest on the deferred payment at a rate not to exceed 6 per cent per annum, provided that the owner of any property assessed may at his option pay such assessments in cash within thirty days from and after the passage of the ordinance or order to the City Treasurer in which case said cash assessments shall not include any items of interest upon bonds to be issued in anticipation of the deferred installments of assessments.

Section 6. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments and in the amount equal thereto.

Section 7. That the remainder of the entire cost of said improvement not specially assessed, including cost of intersections and the damages awarded any owner of adjoining lands and interest therein and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.

Section 8. This resolution shall take effect and be in force from and after its passage and legal publication.

Passed March 7, 1921.
H. H. SCOTT, President of Council.
Attest: GEO. H. HAMILTON, Clerk of Council.
Approved by the Mayor this 8th day of March 1921.

ORDINANCE NO. 3303.

By Messrs. Baker, Bazler, Faust, Keenart, Knauber, Redman, Riggs and Wolverson.

Establishing the Boundaries of the City of Newark, Ohio.

Be it ordained by the Council of the City of Newark, State of Ohio:

Section 1. That the boundaries of the City of Newark are and are hereby declared to be as described as follows: Beginning at the point where the center of Licking River intersects the east line of Newark Township; thence north along said township line to the northeast corner of A. H. Heisey's Addition; thence west along the north line of said Addition to the west line of the road north of Cedar Hill Cemetery and the center line of Manning Street to the center of the North Fork of Licking River; thence north along the center line of said North Fork of Licking River to the North line extended of the first alley north of Channel Street; thence west along said line to the east line of Tallmadge Place Third Addition; thence north along said east line to the north line of the first alley north of Postal Street; thence west along the north line of said alley to the east line of the first alley east of Maple Avenue; thence north along the east line of said alley to the north line of Cherry Street; thence west along the north line of Cherry Street to the east line of the right-of-way of the Baltimore and Ohio Railroad Company; thence south along the east line of said right-of-way to the north line of the first alley north of Channel Street; thence west along the north line of said alley and the center line of Lavin's Lane to a point 124 feet west of the center of Mt. Vernon Road; thence south to a point in the north line of Ruggland Addition which is located 900 feet west of the west line of Mt. Vernon Road; thence west along the north line of Ruggland Addition and said line extended to the section line of center line of Newark Township; thence south along said section line and the center line of Sixteenth Street to a point 166 feet north of the north line of Church Street; thence west, parallel with Church Street to the west line of S. F. Van Voorhis Avonelle Terrace Addition; thence south along the west line of said Addition, and the west line of the Christian and Flory lands and the West line of the West Main Street Addition to its intersection with the north line extended of Neil and Black's Moundview Addition; thence west along said north line extended of Neil and Black's Moundview Addition; thence the north line of said Addition; and the north line of the McMillen lands to the west line of the lands known as the Permanent Encampment Ground of the Ohio National Guards; thence south along the line of said Encampment Ground and the west line of the McMillen lands to the northeast corner of Fred C. Evans' Addition; thence west along the north line of said Evans' Addition to the west line of the north line of said Evans' Addition to the northwest corner thereof; thence south along the west line of said Evans' Addition to the south line of Cherry Valley Road; thence southerly along the south line of Cherry Valley Road to the west line of Glenwood Addition; thence south along the west line of Glenwood Addition to the southwest corner thereof; thence east

along the south line of said Glenwood Addition to the north line of the right-of-way of the Baltimore and Ohio Railroad Company; thence easterly along the north line of said right-of-way to the west line of street known as Twenty-first street or Camp Ground Road; thence south along the east line of said street to the south line of Wells and Miller Park Addition; thence east along said south line to the east line of street known as South Sixteenth Street; thence north along the east line of said street and the west boundary of the Licking County Agricultural Society's Grounds to the east line of the Fair Ground Lane now known as South Sixteenth Street; thence south along said east line of Fair Ground Lane to the southwest corner of Maholm's Addition which is the northwest corner of the Licking County Fair Grounds as they were in 1868; thence east along said south line of Maholm's Addition and said line extended to the center of Quarry Run; thence north along the center line of Quarry Run to the center of Licking River; thence easterly along the center line of Licking River to its intersection with the east line of Newark Township which is the place of beginning.

Section 2. That Ordinance No. 214 passed February 1, 1921 and that Ordinance No. 1731 passed November 19, 1906 and all other Ordinances or parts of Ordinances in conflict or inconsistent herewith be and the same are hereby repealed.

Section 3. That this Ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed March 7, 1921.
H. H. SCOTT, President of Council.
Attest: GEO. H. HAMILTON, Clerk of Council.
Approved by the Mayor this 8th day of March, 1921.
H. A. ATHERTON, Mayor.

ORDINANCE NO. 3300.

By Mr. Knauber.

Accepting the Annexation of Territory to the City of Newark, Ohio.

Be it ordained by the Council of the City of Newark, State of Ohio:

Section 1. Whereas, the council of the City of Newark, State of Ohio, on the 4th day of August, 1919 under Ordinance No. 3036 authorized the annexation of certain territory situated in the Township of Newark, County of Licking, State of Ohio and said annexation was allowed by the County Commissioners, The Council of the City of Newark, does hereby modify and amend the original description as follows: Commencing at a point in the center line of Sixteenth Street, 166 feet north of the north line of Church Street; thence west parallel with Church Street to the west line of S. F. Van Voorhis Avonelle Terrace Addition; thence south along the west line of said Addition and the west line of the Christian and Flory lands and the West line of the West Main Street Addition to its intersection with the north line extended of Neil and Black's Moundview Addition; thence west along said north line extended of Neil and Black's Moundview Addition, and the north line of said Addition and the north line of the McMillen lands to the west line of the lands known as the Permanent Encampment Grounds of the Ohio National Guards; thence south along the line of said Encampment Grounds and the west line of the McMillen lands to the northeast corner of Fred C. Evans' Addition; thence west along the north line of said Evans' Addition to the north west corner thereof; thence south along the west line of said Evans' Addition to the south line of Cherry Valley Road; thence easterly along the south line of Cherry Valley Road to the west line of Glenwood Addition; thence south along the west line of Glenwood Addition to the southwest corner thereof; thence east along the south line of said Glenwood Addition to the north line of the Right-of-way of the Baltimore and Ohio Railroad Company; thence easterly along the north line of said right-of-way to the west line of street known as Twenty-first Street or Camp Ground Road; thence south along the west line of said street to the south line of Wells and Miller Park Addition; thence east along said south line to the east line of street known as South Sixteenth Street; thence north along the east line of said street and the west boundary of the Licking County Agricultural Society's Grounds to the east line of the Fair Ground Lane now known as South Sixteenth Street; thence south along said east line of Fair Ground Lane to the southwest corner of Maholm's Addition which is the northwest corner of the Licking County Fair Grounds as they were in 1868; thence east along said south line of Maholm's Addition and said line extended to the center of Quarry Run; thence north along the center line of Quarry Run to the center of Licking River; thence easterly along the center line of Licking River to its intersection with the east line of Newark Township which is the place of beginning.

Section 2. This ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed March 7, 1921.
H. H. SCOTT, President of Council.
Attest: GEO. H. HAMILTON, Clerk of Council.
Approved by the Mayor this 8th day of March 1921.

ORDINANCE NO. 3302.

By Messrs. Knauber and Bazler.

Amending Section 2 of Ordinance No. 1731, and Ordinance No. 214, to establish a Public Library in the City of Newark, Ohio.

Be it ordained by the Council of the City of Newark, State of Ohio:

Section 1. That Section 2 of Ordinance No. 1731 be and the same is hereby amended to read as follows: Said Library and reading room shall be governed and controlled by a Board of six Trustees, residents of Newark, Ohio, not members of the City Council, to be appointed by the Mayor and confirmed by Council. Said Board of Trustees as now constituted shall serve for a term of three years each, dating from time of last appointment and serve until their successors are appointed. At the first meeting of Council in September, 1921, there shall be two members of the Board of Trustees appointed for a term of three years and every year thereafter two members of said Board of Trustees in a like manner to serve three years. Provided further that no member of said Board shall be allowed or receive any compensation for his or her service.

Section 2. That section 2 of Ordinance No. 1871 and the same is hereby repealed.

Section 3. This ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed March 7, 1921.
H. H. SCOTT, President of Council.
Attest: GEO. H. HAMILTON, Clerk of Council.
Approved by the Mayor this 8th day of March, 1921.
H. A. ATHERTON, Mayor.

RESOLUTION NO. 1047.

By Mr. Redman.
Declaring it necessary to improve National Drive from South Second Street to the South Corporation line and the Linnville Road between National Drive and the south corporation line by curbing and paving the roadway thereof.

Be it resolved by the Council of the City of Newark, State of Ohio, three-fourths of all the members elected thereto concurring:

Section 1. That it is necessary to improve National Drive from South Second Street to the South Corporation line of Newark, Ohio and the Linnville Road between National Drive and the south corporation line by curbing and paving the roadway thereof in accordance with the plans, specifications, estimates and profiles of the proposed improvements prepared by the Civil Engineer, now on file in the office of the Director of Public Service, which are hereby approved which shall be open to the inspection of all persons interested.

Section 2. The material used in the construction of said improvements shall be asphalt, brick, stone, cement or other material as shall hereafter be determined.

Section 3. That the grade of said street shall be as follows: The grade of the south curb and of the center line between South Second Street and Wilwood Avenue and of the east curb and the center line between Wilwood Avenue and the south corporation line shall be as described herein. Commencing at the east line of South Second Street at an elevation of 73.23 feet above the established datum of the city of Newark; thence by a straight grade to the east line of South Third Street at an elevation of 73.23 feet; thence by a level grade to the west line of South Third Street; thence by a straight grade 120 feet to a point at an elevation of 79.1 feet; thence by a straight grade 200 feet to a point at an elevation of 73.4 feet; thence by a straight grade 280 feet to the approximate center line of South Fourth Street at an elevation of 78.3 feet; thence by a straight grade to a catch basin opposite House No. 109 at an elevation of 79.2 feet which is the present grade of said catch basin; thence by a straight grade to the approximate center line of Wilwood Avenue at an elevation of 81.6 feet; thence by a vertical reverse curve to the north end of the bridge over the South Fork of Licking River at an elevation of 85.7 feet; thence 200 feet by a vertical curve at the same grade as the present elevation of said bridge to the south end of said bridge at an elevation of 85.5 feet; thence by a straight grade 230 feet to a point at an elevation of 82.9 feet; thence by a vertical curve four hundred feet to a point at an elevation of 89.75 feet; thence by a straight grade, 700 feet to a point at an elevation of 125.86 feet; thence by a vertical curve two hundred feet (200) to a point at an elevation of 131.25 feet; thence 231 feet to the south end of Orchard Street at an elevation of 135.2 feet; thence by a straight grade 119 feet to a point at an elevation of 137 feet and thence by a straight grade to the south corporation line at an elevation of 138.25 feet.

The grade of the north curb between South Second Street and Wilwood Avenue and of the west curb between Wilwood Ave. and the South Corporation line shall be the same as that described above except at Wilwood Avenue where the grade at the center line of Wilwood Avenue shall be depressed to an elevation of 79.75 feet and said grade shall extend by a vertical reverse curve to the north end of the bridge over the South Fork of Licking River at an elevation of 85.7 feet, and the grade from the center line of Wilwood Avenue easterly shall be a straight grade for a distance of 187 feet where it shall intersect the grade of the south curb and the center line as heretofore described at an elevation of 80.6 feet.

The grade of the center line and of the curbs of that part of Linnville Road which lies between National Drive and the South Corporation line shall be a straight grade commencing at an elevation of 135.2 feet at National Drive and extending to the South Corporation line where the elevation is 138.5 feet as shown on the plans and profiles now on file in the office of the Director of Public Service.

Section 4. That the whole cost of said improvement, less one-fifth thereof and the cost of intersections shall be assessed by the foot frontage upon the following described lots and lands, to-wit: All lots and lands bounding and abutting upon the proposed improvement which said lots and lands are hereby determined to be specially benefited by said improvement and the cost of said improvement shall include the expense of printing and publishing notices, resolutions and ordinances required, and the serving of said notices, the cost of construction, together with the interest on bonds issued in anticipation of the collection of deferred assessments and all other necessary expense.

Section 5. That the assessments so to be levied shall be paid in twenty (20) semi-annual installments with the interest on the deferred payments at a rate not to exceed 6 per cent per annum, provided that the owner of any property assessed may at his option pay such assessments in cash within thirty days from and after the passage of the ordinance or order to the City Treasurer in which case said cash assessments shall not include any item of interest upon bonds to be issued in anticipation of the deferred installments of assessments.

Section 6. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments and in the amount equal thereto.

Section 7. That the remainder of the entire cost of said improvement not specially assessed, including cost of intersections and the damages awarded any owner of adjoining lands and interests therein and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.

Section 8. This resolution shall take effect and be in force from and after its passage and legal publication.

Adopted March 7, 1921.
H. H. SCOTT, President of Council.
Attest: GEO. H. HAMILTON, Clerk of Council.
Approved by the Mayor this 8th day of March, 1921.
H. A. ATHERTON, Mayor.

LEGAL NOTICE.

To Howard J. Black, 31 North Champlain Avenue, Columbus, Ohio, Benton K. Black, 982 North High Street, Columbus, Ohio, Annabel Black, 480 West Fourth Avenue, Columbus, Ohio, Henry C. Black, 480 West Fourth Avenue, Co-

lumbus, Ohio and Bernice Black Rose, Chicago, Illinois.
Persons interested in the estate of Joseph Black, deceased late of Granville, Licking County, Ohio, as heirs, will take notice that on February 23, 1921, William M. Black, administrator of the estate of Joseph Black, deceased, presented to the Probate Court of Licking County, Ohio, a claim for allowance against the said estate for the sum of \$500.000. That said cause will be for hearing on the 28th day of March at 9 o'clock A.M. 1921 at the office of the Probate Judge of said county.
WILLIAM M. BLACK, Administrator.
Stasel, Hunter & Baker, Attorneys.

Amusements

TONIGHT'S ATTRACTIONS.
Auditorium—"The Kid" and Wrestling Match."
Alhambra—Louise Lovely in "Little Grey Mouse."
Grand—Eugene O'Brien in "Broadway and Home."
Lyric—Mae La Porte Stock Co.

LAST SHOWING TODAY OF "BROADWAY AND HOME"
 "Broadway and Home" is both the title and the locale of Eugene O'Brien's latest Selznick feature, which is shown at the Grand theater the last times today.

Mr. O'Brien is seen in another virile role, which affords great scope for the display of his talents. He is excellent.

one day Mary, John and the Corporal decided to run away. So off they started, with Mary dressed as a boy. The sudden illness of the Corporal forced them to apply for aid to the big house on the hill, and then the story takes a most unexpected turn, one that brings out some surprising facts that had been hidden for years. In the end all is happiness, as the star concludes what probably is the best picture of her career.

TIME PASSES QUICKLY WITH CHAPLIN PICTURE
 It was a critical audience that gathered yesterday at the Auditorium theater to witness the showing of Charlie Chaplin's latest film, "The Kid." First

—she wins them with her personality. Miss Greenwood will be seen at the Auditorium soon in her new musical comedy, "Linger Longer, Letty," entirely different from her former success, "So Long, Letty."

LOUISE LOVELY SCORES IN FIRST STAR ROLE
 Louise Lovely, the latest star of William Fox and hitherto well-known as a Fox leading woman, scored an emphatic success in a most difficult role when the engagement of "The Little Grey Mouse" opened to a capacity house at the Alhambra theater Monday.

As the timid, reserved wife of a selfish and conceited husband, who climbs to literary fame with the secret aid of her talent, she gives a striking performance. As a result of her loyalty to a man who not alone has stolen her talent, but has stolen her talent, but has insulted and dishonored her, she becomes entangled by him in a scan-

dal, in which she is entirely innocent. Divorcing her, the man gives himself up to an alliance he has earlier formed with a scheming woman—who soon discovers that his literary fame is bogus.

The divorced wife goes to California, where she completes a novel which brings her both celebrity and fortune, and finally unites with a real man who has been a true friend throughout her troubles.

The story is by Margara Le Marr Deely, and the picture was directed by James P. Hogan. It deals with a vital phase of American life, and is handled in a clean, interesting, and wholesome manner.

It is a simple story of real people, and its appeal is a universal one. This feature is held over tonight.

"CENTURY MIDNIGHT WHIRL"
COMING SOON
 At the Auditorium soon the attraction will be the "Century Midnight

every member would tell the house if appearing alone; therefore the organization is of notable strength.

The cast is headed by Richard Carle, Blanche Ring, Charles Winninger, Winona Winter, Jay Gould and several others, and there is the wonderful "Millionaires' Chorus," famed above all other choruses for its beauty and talent. This attraction plays the Hartman, Columbus next week.

IMPOSING SET IN FAIRBANKS FILM
"HE COMES UP SMILING."

One of the most imposing sets ever built for any motion picture production is that built for Douglas Fairbanks' new Artcraft photoplay, "He Comes Up Smiling," which will be shown at the Auditorium theater next week. This set represents a complete house with the fourth wall removed, showing ten rooms, including parlor, study, dining room, kitchen, bath and bedrooms. Every room is furnished lavishly.

In this house the various prisoners of Jerry, the tramp, the part played by Mr. Fairbanks, are incarcerated until the startling denouement causes their release and the general clearing up of a complicated and grotesquely humorous story. The picture provides the athletic star with abundant material for obtaining laughs and it is needless to say that he has not failed to

take advantage of the opportunities provided for him.

Mr. Fairbanks essays the role of a sublimated tramp, a modern Quixote, who sets to rights a series of business intrigues and incidentally wins a bride.

There's Many a "Kick"
 Where You Least Expect It!

Look at this picture and ponder. Father thought there was no more "pep" in the old nag, but his wayward daughter discovered that there was a wallop left in each old hoof—and she used the one horse power battering ram in self defence.

Think farm life is dead from the neck up? No "kicks" left in it? Oh! what a lot you've got to learn!

See the simple life exposed—get next to Nature—watch the All Star Comedy Cast tear the veil of secrecy from the romance of rural righteousness in

MACK SENNETT'S

Big New FIVE-REEL Comedy Sensation
"DOWN ON THE FARM"

Whirl, that novel and spirited and jolly and happy combination of comedy and melody and dancing and specialties and fun that for three years on the Century Roof in New York bashed sleep for all the merriest-seekers of the smart set and all visitors who sought a taste of real New York life.

The "Century Midnight Whirl" is a novelty in theatrical offerings. It is a genuine roof show, designed for those who wished to finish the day—or night—with a whirlwind of gaiety.

John Henry Mears is sending the "whirl" here with a cast of stars whose

Later she was in the chorus with the Rogers Brothers, and had a few lines to say with Sam Bernard. This was her first chance. Bernard got a number of laughs by retreating to her gawky appearance. She was inspired by the fact that if people laughed at her they might laugh with her. She went into vaudeville with Eunice Burnham in a sketch entitled "Two Girls at the Piano." One night, purely by accident, she offered her now famous side kick. It created a riot. Lee Shubert happened to see her in vaudeville and engaged her for the Passing Show of 1913. Mr. Morosco saw the young woman on the stage. He also realized that she had ability and gave her a three year contract. Her first appearance under the Morosco management was with "The Tick Tock Man of Oz" then with "Pretty Mrs. Smith." "So Long, Letty" was written especially for her. She is one of the few stars in musical comedy who does not have to rely on her voice, shape or beauty to win her audience

both as the sturdy man of the sea and later as a blase New Yorker.

The story, by John Lynch, has been directed by Alan Crosland with more than ordinary skill. An extra fine supporting cast, including Elmo Earle, Frank Losee, Eileen Cassidy and Warren Cook, surrounds the star.

BIG COMEDY COMING TO ALHAMBRA THEATER
 "Down on the Farm" a five reel comedy drama and one that Mack Sennett works months to produce with that funny fellow with those "cannot make 'em behave eyes" Ben Turpin, comes to the Alhambra for three days starting Friday. This is an United Artists production.

BIRD OF PARADISE TO BE SEEN HERE AGAIN
 "The Bird of Paradise," at the Hartman theater, Columbus, this week—same company and production—comes to the Auditorium Friday, April 15th.

OLIVE THOMAS PICTURE A PLEASING LESSON
 From the uttermost depths of poverty to a position of wealth and all that it signifies, went Mary, the little girl from the county poor farm; but in spite of her new found riches and friends she never forgot her old companions, who stood by her in the days of adversity. That's why they all called her "Everybody's Sweetheart," which is the title of Olive Thomas' last picture, made of her before her tragic death abroad.

"Everybody's Sweetheart" is the feature attraction at the Grand theater tomorrow and Friday.

Mary was one of the few survivors of a terrible railroad wreck, and John, a boy about her own age, another. The children were placed in the county poor farm. Here they grew up from childhood to youth amid the most sordid surroundings.

An old inmate of the farm called Corporal was their best friend, and

from the uttermost depths of poverty to a position of wealth and all that it signifies, went Mary, the little girl from the county poor farm; but in spite of her new found riches and friends she never forgot her old companions, who stood by her in the days of adversity.

PIMPLY? WELL, DON'T BE
 People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

TREX! IF BILIOUS OR CONSTIPATED
 Few Cents Worth is Plenty. Try it! Take Harmless, Soothing Trex For Just a Few Days.

Then no more headache, feverish, bilious "spells," good-bye chronic, miserable constipation; no more all-gone listless feeling. Trex is wonderful! Acts right off. Trex induces natural drainage of the system; promptly opens your clogged-up liver and bowels; cleanses the stomach of fermenting, gassy foods and waste; relieves feverishness, headaches, dizziness and other bilious misery. Don't stay "knocked out" any longer. Get this quick relief today. 35c at Evans Cut Rate Drug Store, or direct from H. B. Denton & Co., Mt. Carmel, Ill.

A COMFORTING THOUGHT

To feel that to the last and for al-
ways, we have thus cherished and hon-
ored our beloved and so thoroughly
protected that tenement (wherein abided
a well loved soul) from destruction by
the elements or ignominious violation
by the creatures of the earth; to know
that they lie secure and peacefully
sleeping behind these walls of everlast-
ing granite and marble is the most com-
forting thought we can have to com-
pensate for that tragic parting—called
Death.

The sunlight, mellowed through its
windows of golden opalescent glass, the
sparkling marbles, the dignified bronzes,
make of this a mansion of life. The
dignity of death is there, but with it is
peace and tranquility and the light and
hope of a bright hereafter.

To make this provision for yourself
and loved ones is the greatest service
you can render them or yourself in this
life.

In these days of business and social
activities practically every emergency
of life is prepared for, but that of death
is too often postponed until the last
moment, resulting generally in hurried
and unsatisfactory arrangements for
the last resting place.

ture and give messages at the Spir-
itualist church Thursday night, March
10th.
Resumes Duty.
Humane Officer Coen has resumed
active duties again after being confined
to his home for a week with the grip.
Complaints are received at 1653 or 5184.
Seek New Members.
The membership campaign of the
Licking County Humane society an-
nounced a short time ago is progressing
very satisfactorily, with two solicitors
engaged in the work.
Fallsburg Man Arrested.
Earl Mosholder of near Fallsburg
was arrested yesterday by Officer Sny-
der of the municipal court on an affi-
davit of Marion Dunn, father of Pearl
Dunn, aged 15. Statutory charges are
named in the affidavit. Mosholder will
have his hearing in municipal court
on Monday at 1 o'clock.

CHRISTO IS ADJUDGED INSANE BY COURT

George Christo was adjudged insane
yesterday afternoon following an ex-
amination by Drs. Postle and Hunt.
He will be held at the county jail until
he is taken to the state asylum in Co-
lumbus Thursday.
Christo is a Bulgarian, who went to
New York last month and married a
girl from his country who had just ar-
rived in this country. He met her
when he visited his old home following
the war, and arranged for her to come
over here to marry him. In his trouble
yesterday he was under the impression
that he was being doped and that the
girl he married was not his former
sweetheart.

RAINS HALT WORK ON BRIDGE TO "TEXAS"

Service Director Gilcrest stated this
morning that the rains again last night
would further interfere with and delay
the repair of the approach to the tem-
porary bridge at Ohio street, which was
washed out Saturday night following
the heavy rains. The work of building
the approach again cannot begin until
the water subsides sufficiently to allow
the men to work.

WEST MAIN ST. BRIDGE OPENED AFTER REPAIRS

The bridge on West Main street over
Raccoon creek was opened for use the
first of the week, following its repair by
the county. The bridge which has been
closed to traffic for a month was found
to be in a dangerous condition when the
Ohio Electric railway company took
up the flooring to put in new ties. The
steel was badly rusted in places and
had to be replaced. A new floor with
the planks running lengthwise with
the bridge was also put in by the county
which has the care of the bridge.

CITY GETS \$179,987 AS SHARE OF TAXES

The city of Newark received \$179-
987.22 as its share of the February set-
tlement of the taxes collected for the
last six months' period. The schools of
the city received from the same source
the sum of \$164,779.12. Distribution of
the funds was made throughout the
county today by County Auditor Wilson.
Total collections were \$1,122,599.65.
On the tax duplicate for the county
there is \$1,109,364.50 and is expected
that the county during the year will
collect \$2,216,358.37.

SEEKS TO RECOVER \$26 OVERDRAWN AS SALARY

Judge Brooks E. Shell and a jury
were engaged today in hearing the case
of the village of St. Louisville vs. V.
B. Jones. The village seeks to recover
\$26 and interest from Jones for alleged
overdrawing of his salary as clerk of
the village. A. F. Slater and R. E.
Householder were made co-defendants
with Jones as they are his bondsmen.

THE COURTS

Answer is Filed.
In the case of Robert Irwin vs. E. A.
Smoots, administrator of the estate of
Mary Slough Smoots filed an answer
and cross petition in common pleas
court yesterday afternoon denying the
allegations of the petition. For cross
petition he seeks recovery from Irwin
in the sum of 368 for rents, chickens,
household goods and furniture. Jones
and Jones are the attorneys for Mr.
Smoots.

Marriage Licenses.
Earl Watson, electrician, Columbus,
and Miss Katherine T. Sullivan.
Raymond J. Untied, garage and taxi
owner, and Miss Della A. Brown, shoe
worker.

Cincinnati—William C. Dawson,
charged with killing his wife indicted
on first degree murder charge by
grand jury.

CATARRH YIELDS TO HYDROSAL

No More "Stuffed Up" Feeling—
Clears the Head Instantly—
Soothes and Heals
Quickly

Free Sample Sent to Anyone

Here is actual and instant relief from
catarrh in all its forms. Hydrosal, the
great hospital antiseptic treatment, has
proven the greatest boon the catarrh
sufferer has ever known—and it is so
simple and easy to use—no sprayers or
other apparatus needed—just apply
Hydrosal and the relief is immediate.
Continued use will make the results per-
manent. Hydrosal removes the scales
and secretions at once and soothes and
heals the sore membranes. Clears the
head and makes sleep possible without
choking or droppings in the throat.

Full directions go with each sample
package, and they are so very easy and
simple that anyone can use Hydrosal in
their own home with no inconvenience
of any kind. The most stubborn and
aggravated cases of long standing yield
readily to Hydrosal, and continued use
for a short time will give permanent
results with little expense.

L. W. Smith, W. A. Erman Arcade
Store, T. J. Evans, Mykrantz Drug
Store and most good druggists sell and
recommend Hydrosal in popular sizes
25c and 50c, or we will send a liberal
sample free on request. 2915 Hydrosal
Laboratories, Cincinnati, Ohio.

GERMAN SEEDS ARRIVE.
Galveston, Tex., March 9.—The first
consignment of German sugarbeet seed
to be received here since outbreak of
the world war was reached here today
aboard the American steamer Westland
from Hamburg and Bremen. The West-
land also brought hops, teas, skulls
and tusks, together with 50 rolls of
print paper.

Frankfort, Ky.—Former State Sena-
tor Thomas H. Paynter, died here.

MAN SPENDS NIGHT ADRIFT IN ICY WATER TO TEST OUT HIS INVENTION

Oscar A. Youngren, New York inventor, enjoying his morning paper
and cigar after his breakfast eaten while in the icy waters of the
Hudson river.

Just to test the merits of his invention, a safety waterproof bouy-
suit for use in case of shipwreck, Oscar A. Youngren of New York
city spent the night in the chilly waters of the Hudson river. With the
assistance of authorities at West Point Military Academy he made the
test to prove the suitability of his invention for military use. At 11:30
p. m. he entered the water, the temperature being 28 degrees. He re-
mained floating about, half submerged among the ice cakes for ten
hours, two army sergeants watching him to make the test official. At
9:25 a. m. the following morning he enjoyed a novel breakfast, using a
large cake of ice for a table as he floated about breast-deep in the water.
After the photograph was taken he climbed ashore and the doctor of
the academy examined him and found that he had suffered no ill effects
from his experience.

SUFFERED AGONIES AFTER EACH MEAL

Stomach filled with gas, bowels constipated. Praised Dreo for relief.

"I couldn't eat many things I wanted because my digestion was poor and I'd suffer after each meal, but thanks to Dreo that is all over with now," declared Mrs. Lucie May of 99 Market St., Tiffin, Ohio.

Made of the pure extracts of many herial plants, Dreo combines with the digestive juices of the stomach and quickly promotes a healthy digestion thereby stopping gas formation, griping and constipation. Pleasant to take and prompt to act, sold by all druggists and specially introduced here by Evans' Cut Rate Drug Store.

ITCHING SKINS

Don't pick or scratch an itching, fiery skin. Eczema, Itches or Pimples. It's dangerous, and may cause serious infection or spreading of the condition. Instant relief may be quickly obtained by using Georo Wormwood Balm.

This fragrant antiseptic Wormwood treatment takes out the itchy and stops the itching immediately. Leaves a delightful cooling sensation that quickly soothes and comforts the rough, sore, irritated skin. One trial will convince you. Any good druggist can supply you with Georo Wormwood Balm and you can have your money back if you are not satisfied.—Advt.

USE IODINE FOR SKIN IRRITATIONS

Pimples and Blemishes Vanish.
If people would only have Iodine in the home at all times for a family remedy, they could nip in the bud many serious afflictions and always have an antiseptic and healing remedy for every-day accidents and ailments says a woman who speaks after many years' experience in raising a large family.

"Take Eczema for instance," she says, "we used to call it St. Anthony's fire when I was young. The red, irritated, swollen skin, the itching and burning are maddening, and Iodine is the remedy."

Physicians are practically unanimous in recommending Iodine. They prefer it in its pure form—Lanolin-Iodine Compound—which is soothing, healing and powerful, yet never irritates or blisters, and is practically stainless. It is quickly absorbed into the tissues and glands, usually giving prompt relief.

Druggists have this agreeable Iodine ointment and gladly recommend it as it gives unusual satisfaction. It is to get Lanolin-Iodine for best results.

WENDELL'S SALTS AMBITION BRAND

Start Each Day Right With
A Clear Head and Good
Appetite in the
Morning

You can't do business right if you start the day wrong. WENDELL'S SALTS, AMBITION BRAND is a great rectifier of mistakes of eating or drinking the night before. If you dine not wisely, but too well, take WENDELL'S SALTS, AMBITION BRAND, before going to bed.

In the morning wake with your head clear, your stomach feeling fine, your eyes bright with the sparkle of health and energy. Be in condition to enjoy your work and do it well.

WENDELL'S SALTS, AMBITION BRAND, is pleasant to take and quickly, no pain or discomfort. A large bottle at T. J. Evans' costs but a few cents. Your money back on the first bottle purchased if you are not satisfied. A fine preparation for indigestion, headache, biliousness, constipation, sluggish liver and the Acid Troubles, no pay on the first bottle purchased.

Help to drive the uric acid from your system by taking WENDELL'S SALTS, AMBITION BRAND.

HEALTH THE KEYNOTE TO BEAUTY

Beauty means so much to women—power, social triumph, admiration and love. Beauty implies good health. Who ever saw a woman racked with pain, struggling with weakness or disease, who could be called beautiful? The woman of today in this high-strung, nervous age is continually overdoing, with the result that ill-petual to her sex develop which, unchecked, will ruin all chances for her happiness. The natural restorative for such ailments is Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been recognized as a standard remedy for women's ills and has done much to relieve pain and restore good health to women.

OXIDAZE

TABLETS
Made With Essential Oils
FOR

POLITICIANS --- AUCTIONEERS
CLERGYMEN --- LECTURERS
SINGERS

Anyone who speaks or sings in public whose voice is apt to grow hoarse or weak from the strain, will find that one Oxidaze tablet slowly dissolved in the mouth before speaking or singing, will make a world of difference. The voice stays strong and clear and natural even during an unusual strain.

Thousands of people have testified to the remarkable value of these pure essential oil tablets, which bring such quick relief in cases of Hoarseness, Loss of Voice, Soreness, or Ticking in Throat, Bronchitis, Bronchial Irritation, Bronchial Asthma, Coughs, Colds, and as a preventative against Grippe, Influenza and Pneumonia.

One small inexpensive package of "Oxidaze" tablets will quickly prove the value of pure essential oil in cases of this kind; if they are always kept in the house for use in case of an emergency, they may save you many days of serious illness or discomfort. W. A. Evans, Evans' Drug Co. or any good druggist can supply you.

You can never tell. Some people who think twice before they really are sure in saying something worse.

The Professor's Egg

By HAROLD SINCLAIRE

(© 1921, Western Newspaper Union)

Professor Ferdinand Brinckhofen wandered into the kitchen of his summer bungalow, on the Maine shore. His wife was washing the dinner dishes.

"Ellen, my dear," he said, "Doctor Cavendish of the Natural History museum will be here this afternoon. Can you get up a meal for him? He has to start back tomorrow morning."

"I suppose so, Ferdinand," answered his wife, a little tartly.

Professor Brinckhofen engaged a rowboat and pulled round to the railroad terminal, where he arrived just in time to greet Doctor Cavendish as his visitor stepped out of his car.

"Well, what did you think of my letter?" he asked, after the customary greetings had been interchanged.

Doctor Cavendish took his friend by the arm. "My dear old enthusiast," he answered, "to be frank with you, I am skeptical—wholly skeptical. It sounds too good to be true. If you had told me that you had discovered a buried Indian village or a dozen asteroids I would have accepted your word without question. But a great auk's egg—no, my friend. You have probably mistaken the egg of a crested grebe or a tufted puffin for that of the auk."

"But the great auk did range as far south as Maine in the last century!" cried the professor.

"What does Mrs. Brinckhofen think of it?"

"She doesn't know anything about it, of course. I don't believe in telling my wife a professional secret. And the joke of it is"—he nudged Cavendish in the ribs—"it's incubating with a clutch of eggs that she set out last week under one of our hens. It couldn't be safer anywhere."

"Show me!" said Cavendish, skeptically.

They climbed the hill and entered the little garden of the bungalow. In one corner was the henhouse and, in the center, seated upon a clutch of eggs surrounded with straw, was a gray hen.

Professor Brinckhofen plunged his hand into the clutch and drew out the precious egg. It was a little larger than that of a goose.

"Good heavens, Brinckhofen, it is! It is!" yelled Doctor Cavendish, and, carefully replacing it, he seized his friend round the waist and the two graybeards executed a dance.

Mrs. Brinckhofen watched them out of the kitchen window.

She sat down and meditated upon the subject until the men came in. Then she welcomed Doctor Cavendish with smiles.

"Come, Cavendish, I want to show you my laboratory," said Brinckhofen, dragging his friend away as soon as he decently could. They went into the professor's little bare room and began discussing the great discovery.

"Of course it goes to the museum, Brinckhofen," said Cavendish, "it will be worth a thousand dollars to you."

"A thousand dollars?" exclaimed the professor. "You are joking, Cavendish. Why, the egg alone would bring that at auction."

"Yes, yes, I'm speaking about the egg," said Doctor Cavendish irritably. "What are you speaking about?"

"Why, the auk, of course. Don't you know that I put it there so that it would hatch? Why, we'll have a real live bird, Cavendish. I shall sell it to the Zoological society, and I'll patch up the egg after it has hatched out, and I'll let you have that for a thousand. And the bird will lay more eggs, and I'll get a thousand apiece for those too, and—"

"I say," interposed Cavendish, "remember it isn't hatched yet. If I were you I would tell Mrs. Brinckhofen about it."

"Tell Mrs. Brinckhofen! Why, she'd tell the neighbors and they'd steal it or do something to it! Never trust a woman. No, it is safest just where it is."

They argued with some lack of equanimity until dinner time, when Mrs. Brinckhofen ejected them into the dining room.

"Hum! I'm hungry as a bear," said Doctor Cavendish, pulling his napkin across his knees. "What have we here? Scrambled eggs? Fine!"

"I don't know whether you like scrambled goose eggs," said Mrs. Brinckhofen. "They say they're very nice. I found one under our birdy—it must have been laid by one of Mr. Giles' geese, for it wasn't there last time I looked. So I thought that as we hadn't many eggs I'd try what it tasted like."

"Woman!" gasped the professor, springing to his feet, "do you mean to say you—scrambled that egg?"

"Yes, dear," said Mrs. Brinckhofen sweetly.

Chinese Moon Feast.

The moon of falling leaves takes a prominent place in the mid-autumn festival celebrated in the Flowery Kingdom, according to a writer in the North China Herald. Under a resplendent moon, accompanied by offerings of fruit, the ceremony is widely celebrated. There are feasts and rejoicing which reach traditional height at midnight, the hour for worshipping the moon. The very poorest have their moon cake, a delicacy obtainable only at this time of the year. There are lighted lanterns attached to poles on the roofs, and fire balloons with strings of crackers are dispatched aloft.

One admittance leads to another. The man who is blind to his own faults is also deaf to the voice of conscience.

DOMESTICS

WINDSOR PERCALES
Best quality Windsor Percales in all the new pastel shades, and clever designs. These percales are being used extensively in the making of the new Pollyanna Aprons. They are percales that ordinarily would sell at as high as 65c. Our very special price is—a yard..... **29c**

Boys and Girls!

Make the best and purest candy right at home with Karo—little cost

Everybody likes good candy. There's lots of pleasure passing around a big box of appetizing-looking and appetite-satisfying candy.

It's a pleasure for you, and it certainly makes a hit with all the boys and girls. Even the older folks are glad to have some in the house—when friends call. Make some delicious Karo Divinity Candy next time any of the young folks drop in. It's great fun, and costs little. Just take—

• baking and candy making. Light brown color, delicious flavor—a heavy-bodied syrup.

RED Karo

The Ideal Syrup for every use—for cooking, baking, candy making and preserving. Because of its honey-like appearance many prefer it as a spread for cakes, biscuits, breads.

GREEN Karo

Flavored with highest grade real maple sugar. Very moderate in price—absolutely pure. The makers of Karo are the world's largest users of the highest grade maple sugar—over a thousand tons used annually.

FREE Beautifully illustrated Corn Products Cook Book of 64 pages. Write Corn Products Refining Co., Argon, Ill.

5 1/2 cups Granulated Sugar 3 cups Cream
2 cups Karo (Green Label)
A few drops Maple Flavoring

Boil until the mixture forms a ball when tried in cold water. Put the pan into a pan of cold water. If you wish, add one pound nut meats. When cool beat with a cake spoon until the candy is creamy. Pour into a loaf pan lined with oiled paper.

NOTE: The candy is hard to "beat" at first, on account of the syrup, but after a little beating the mixture becomes thin and is easy to beat. When it begins to get hard again, pour into the pan. If desired, fruit may be added as follows:

1 small box of Candied Cherries
1 slice of Candied Pineapple
1/2 pound Almonds

Your Protection

Do not be deceived by candy containing syrup, that might look like Karo. The name "Karo" is on every can of original Karo—look for it and be assured of full work and highest quality.

BLUE Karo

The standard table syrup. Also for cooking.

TELLS ROTARIANS OF RAILROAD EXPERIENCE

At the Rotary club luncheon at the Masonic temple yesterday noon, Hamilton Hill Hamilton gave a very interesting account of the railroad game and his personal experiences with it starting when he was 13 years old. Mr. Hamilton spoke particularly concerning the car business and his talk was much appreciated by the club.

Rotarian Lawrence Krieg reported that there were 18 local Rotarians who intended to go to the Rotary District convention at Cleveland March 21 and 22. Any Rotarian intending to do will confer a favor on Mr. Krieg if he is notified.

Rotarian W. H. Mizey and T. M. Edmiston, who returned from a month's trip to Florida Monday spoke briefly, giving an account of their trip. Each thought that next to Ohio, Florida was the best state in the union.

The report of Rotarian George Hermann on the meeting of the Ohio Society for Crippled Children in Cleveland last month was read to the club by President Beas. Mr. Hermann announced excellent progress with the work and the formation of a budget with an assessment for each Rotarian in the 10th district to take care of the work for the coming year.

CHAMBER OF COMMERCE REPORTS ON ACTIVITIES

The Chamber of Commerce has made a detailed report of the work done the past month, which includes conferences and office work.

Particular stress is laid on the efforts to bring the Child Health Demonstration to Licking county; the work of the industrial committee in aiding the Haladay Motors corporation; the organization of the minute men of Licking county, and the efforts to effect a European Relief organization.

The delinquent membership list is being cared for through a collector and the club rooms have been used upon three occasions by the Farm Bureau twice by the Women's club; once by the Underwriters; twice by the Ministerial association and twice by outside groups.

Letters mailed numbered 479 and 215 letters and statements sent to delinquent members. Two hundred and eight calls with various requests were recorded and rooms were found for seven individuals. For the first time an effort was made to keep a record of incoming phone calls and over 300 were recorded.

LIVE STOCK SHIPPERS WILL MEET SATURDAY

A meeting will be held on Saturday at the Farm Bureau to organize a Live Stock Shippers' association for the county. F. G. Ketter of the Ohio Farm Bureau Federation will be at the meeting to explain the line of work, and to discuss the details of the association.

The meeting will be held at 1 o'clock Saturday afternoon.

REYNOLDSBURG MAN SUED FOR BREACH OF PROMISE

Alleging Walter S. Scully asked her to marry him, secured her consent, set the date and then left for parts unknown, Grace Cornell, of Black Lick, Monday entered suit in common pleas court for \$7,000. She named as defendants in the suit Walter F. Scully, Alameda Scully and the Reynoldsburg bank.

She alleges Scully had no intention of marrying her and in order to avoid possible damages arising from a breach of promise suit assigned his property to Alameda Scully, his mother. She also alleges the bank has in its possession credits of Scully's.

BULLET INJURES THREE.
New York, March 9.—Three members of the 23rd infantry regiment, New York national guard, today were suffering from wounds inflicted late last night by one bullet, discharged from a service rifle in the regimental armory. The bullet first struck James Golder, passed through his body and secured the shoulder of Daniel Bornsheim striking the wall it ricocheted, inflicted a slight wound in another man's leg hand. A fourth member of the regiment was detained by police pending an investigation.

TRAFFIC MEN MEET.
Youngstown, March 9.—Fifty representatives of traffic committees of Ohio industries are holding their annual state convention here today, with Guy Cox of Springfield presiding. Reports on traffic conditions will be presented.

SHOW WINDOWS ROBBED.
Cleveland, March 9.—Show windows in two downtown stores were shattered early today and merchandise valued at more than \$2,000 stolen. Two sable neckpieces and a fur coat, totalling about \$2,700 were taken from one window and forty silk shirts valued at \$300 from the other.

Cleveland—Thomas W. Hill, 76, vice president of a local trust company died here. He formerly lived in Toledo.

VON TIRPITZ TALKS OF WAR PLANES

Doubts If Aircraft Will Become Really Effective Weapon For Use Against Naval Vessels.

Saint Blasen, Baden.—Admiral Alfred von Tirpitz, German naval authority, in an interview gave his views on the influence of aircraft upon future wars. He discounted the Zeppelin airship as too much subject to wind and too vulnerable for ordinary reconnaissance. The airplane, in his opinion, has an importance for use against naval vessels, but it will tend to perfect it for war purposes.

While the airplane has taken a high place in land fighting as a substitute for cavalry, Admiral von Tirpitz said it had not developed its usefulness to the same degree in sea reconnaissance, but that was probably due to the newness of the airplane, which waterplanes of the future might conceivably overcome. The admiral reserved his opinion on the possibility of effective attacks by airplanes upon battleships but clearly showed that he doubts that airplanes will become a great menace to the warships, as he pointed out, the latter will have a great advantage while heavy loaded airplanes will always be in danger of counter attacks from lighter machines.

In comparison with ships, he said, airplanes will always have a fundamental disadvantage in their small load-carrying capacity, especially when they are to be used on a wide expanse of ocean. From a study of the history of naval warfare, the greatest exponent of which was an American, I am persuaded that the nature of naval forces will not change with a jerk, but will develop gradually, for development takes some time which only in imagination and fancies can be skipped. In this respect, in case war has not effected any fundamental alteration, although of course, the rate of technical development is much faster than formerly.

AMERICAN SUGAR CO. SHOWS BIG INCREASE

New York, March 9.—The volume of business done by the American Sugar Refining company in 1920 shows an increase of \$50,000,000 over the year, according to the annual report made public today.

The total of \$350,000,000 President Earl Babst, explained, represents the smallest tonnage handled in the history of the company, high prices alone accounting for the increase of gross receipts.

Operating profits of \$1,800,000 was \$8,400,000 less than in 1919 and about one half cent on each dollar of sales, or a profit of less than one mill per pound.

Referring to the increased sugar supply, President Babst says: "The amount in the national sugar bowl in 1920, represented 111 pounds for each person in the United States. The increased supply in 1920 over 1919 was sufficient to last the United States from Labor Day until almost Thanksgiving."

BABE RUTH SHOWS HE IS A VERSATILE PLAYER

New York, March 9.—Versatile "Babe" Ruth, the New York American stellar baseball star, trained "considerable" yesterday at the Yankee's spring camp in Shreveport, La., it was reported here today.

During the rookie practice in the forenoon he qualified as a side-line comedian, then an hour coaching left-handed pitchers. In the afternoon he played first base, pitched awhile, worked in center field, then went to bat, getting one home run and two singles. He brought the day to a close by relieving the bat boy of his duties.

Danvy Bancroft, New York National's shortstop, who was reported ill, entered the practice game yesterday at the Giants camp in San Antonio.

MARION LAWYER IN LINE FOR APPOINTMENT

Washington, March 9.—D. R. Crissinger, Marion, O., lawyer, is understood to be under consideration for appointment as controller of the currency or as a member of the federal reserve board. It was said at the White House today that no definite selection had been made, although Mr. Crissinger's name was among those being considered for some high government position.

Mr. Crissinger is a lifelong friend of the President. Some years ago he was Democratic nominee for congress in the Marion district but in the same campaign was a supporter of the Republican national ticket.

MARION MAN WILL BE PARKER'S ASSISTANT

Columbus, March 9.—Robert M. Pennell, Marion, was appointed assistant state prohibition commissioner yesterday by Commissioner Don V. Parker. Mr. Pennell has been assistant postmaster at Marion for the past six years. He was president of the Marion school board for the same length of time, and is prominent in church circles at Marion.

MAN SHOT IN BED.
Marion, March 9.—With three bullet wounds in his body, Rosario Caccamotto, 25 years of age, was in a serious condition in a hospital here today, while police were searching for his assailant. Caccamotto, according to police, was shot while in bed early this morning, the bullets coming through the window in his bedroom. The police have no clues, it was said.

BECKHARDT TO RETURN.
Berlin, March 8.—Hendrich Von Beckhardt, former minister to Mexico, will return to the post he formerly held in that country. Since his return here in 1919, he has been in charge of the Spanish-American division of the foreign office.

Providence, R. I.—Center College basketball team defeated Brown 40 to 28.

BOWLING

The Santa Marlas held their tie for first place in the K. of C. league last night by defeating the Ferdinands two out of three games, while their rivals for the same berth were defeating the San Salvadores two out of three. "Jake" Winters was the high man for the evening. The scores:

| Ferdinands | | | |
|------------|-----|-----|----------|
| | 1 | 2 | 3 Tot. |
| M. Kennedy | 183 | 200 | 170—553 |
| J. Gilbert | 121 | 132 | 124—377 |
| C. Carroll | 135 | 135 | 135—405 |
| C. Gilbert | 111 | 197 | 139—447 |
| G. Pieri | 191 | 188 | 179—558 |
| Totals | 721 | 852 | 747—2320 |

The San Salvadores lost their league chances for first and second place last night by dropping two games to the Christophers. Each game was hard fought only two pins separating the two teams in the second game. McManus was the high individual.

| San Salvadores | | | |
|----------------|-----|-----|----------|
| | 1 | 2 | 3 Tot. |
| Kuster | 127 | 210 | 142—479 |
| Schaller | 180 | 132 | 139—451 |
| Dennison | 147 | 147 | 147—441 |
| Dunn | 157 | 130 | 124—411 |
| Winters | 187 | 174 | 224—585 |
| Totals | 798 | 793 | 776—2367 |

| Christophers | | | |
|--------------|-----|-----|----------|
| | 1 | 2 | 3 Tot. |
| Guntch | 88 | 109 | 143—340 |
| Jordan | 143 | 154 | 146—443 |
| Nold | 179 | 130 | 149—458 |
| Kealey | 120 | 102 | 176—398 |
| Malonee | 180 | 163 | 197—540 |
| Totals | 710 | 718 | 816—2244 |

FINAL REHEARSALS HELD FOR MUSICAL REVUE

Final rehearsals of the musical revue "Fads and Fancies" are being held.

A pleasing jumble of clever dance numbers, popular songs of the day, and unusually amusing vaudeville situations make up the production. The play is being sponsored by the Alpha Pi society. Mr. Underhill, the direction, assures the audience that there will be only one ten minute wait between acts.

Reserved seats are on sale at the box office now. There are plenty of good seats left.

GRANDFATHER STUDEBAKER AGENT; GRANDSON NOW IN SAME POSITION

Richard D. Jones Handled Studebaker Products 70 Years Ago and Clarence R. Jones Will Handle Automobile In Same Building Erected by Grandparent.

The two story brick structure in Elmwood court occupied years ago as a wagon works and for general blacksmithing will in the immediate future be made over by the C. R. Jones Motor Co. as a Studebaker service station. The building is 30 by 80 feet. Three generations bearing the Jones name will have occupied it serving the public when it is turned into a Studebaker service depot. Richard D. Jones first chose the spot, erecting a frame structure. This was 80 years ago. There he shod horses and built wagons. As his sons, James E. and Ellis Jones, grew up they joined him and the firm name changed to R. D. Jones & Sons. Later the shop passed into the hands of the sons and now the grandson, Clarence R. Jones is to occupy it. The interior will be remodeled. The floors, which have stood for over a half century will be torn away, the heavy oak flooring removed, concrete taking the place of the latter. Large windows will be installed and the interior refitted in white. A full line of Studebaker service parts will be carried and mechanics trained for Studebaker service will be in charge.

The calling of the grandfather was aiding the methods of transportation of his day, the sons, James and Ellis followed in his footsteps, building bugles and wagons. Seventy years ago Studebaker products were first introduced. The grandfather became the local agent. His sons succeeded him. Now the third generation represented by Clarence R. Jones succeeds his father, James as Studebaker dealer in Studebaker motor cars.

It is the height of every man's ambition to reach the point where he can say just what he thinks.
